

# TABLE OF CONTENTS

<b>INTRODUCTION</b>	<b>7</b>
<b>1. PHYSICAL CHARACTERISTICS OF GAS STORAGE</b>	<b>9</b>
<b>1.1 The different types of underground gas storage</b>	<b>9</b>
1.1.1 Depleted field reservoirs	9
1.1.2 Aquifer reservoirs	10
1.1.3 Salt cavities	11
1.1.4 Abandoned mines	12
<b>1.2 Liquid storage options</b>	<b>12</b>
1.2.1 Liquefied Natural Gas	12
<b>1.3 More recent technologies</b>	<b>13</b>
1.3.1 Rock caverns	13
1.3.2 Caverns in thin salt layers	15
1.3.3 LNG caverns	16
<b>1.4 Research &amp; development projects in storage</b>	<b>17</b>
<b>1.5 Storage terminology and definitions</b>	<b>19</b>
<b>2. THE ROLE OF UNDERGROUND GAS STORAGE</b>	<b>21</b>
<b>2.1 The operational functions of Underground Gas Storage</b>	<b>21</b>
2.1.1 Adjusting supply and demand	21
2.1.2 Strategic storage for supply security	22
2.1.3 Optimisation of the overall transmission network	22
2.1.4 Storage role in producing countries	23
2.1.5 Storage services for third countries	23
<b>2.2 The changing role of Underground Gas Storage in liberalised markets</b>	<b>24</b>
2.2.1 The impact of gas market deregulation	24
2.2.2 The financial and commercial functions of underground gas storage	24
2.2.3 New commercial services offered by UGS	27
<b>2.3 Alternatives to gas storage: the different flexibility tools</b>	<b>29</b>
2.3.1 The use of flexibility tools according to the period	31
2.3.2 The use of flexibility tools according to geographical zones	31
<b>3. LEGAL AND REGULATORY FRAMEWORK OF UNDERGROUND GAS STORAGE</b>	<b>33</b>
<b>3.1 UGS access regulation in the United States</b>	<b>33</b>
3.1.1 The impact of FERC Order 636	33
3.1.2 The Federal Energy Regulatory Commission's role in UGS	34
<b>3.2 Market reforms in Canada</b>	<b>34</b>
3.2.1 The Halloween Agreement	34
3.2.2 The structure of the Canadian gas market	35

<b>3.3 The liberalisation process in the European Union</b>	<b>36</b>
3.3.1 The second Gas Directive 2003/55/EC	36
3.3.2 Third Party Access (TPA) to Underground Gas Storage	37
3.3.3 The legal status of storage in the gas chain	41
3.3.4 The real status of market opening in EU-25	41
<b>3.4 Framework for access to storage in some EU countries</b>	<b>44</b>
<b>3.5 Underground gas storage regulation in Australia</b>	<b>52</b>
3.5.1 Unbundling and third party access in Australia	52
3.5.2 Storage regulation in the State of Victoria	52
<b><u>4. ECONOMIC ASPECTS OF UNDERGROUND GAS STORAGE</u></b>	<b><u>55</u></b>
<b>4.1 Overview</b>	<b>55</b>
<b>4.2 Comparison between UGS and LNG costs of working volume and deliverability</b>	<b>57</b>
4.2.1 The investment costs	57
4.2.2 The operating costs	60
<b>4.3 Market and service prices of UGS</b>	<b>61</b>
4.3.1 The cost-based method	61
4.3.2 UGS economic value in Europe	62
4.3.3 UGS economic value in the United States	63
<b>4.4 The evolution of future storage costs and tariffs</b>	<b>66</b>
<b>4.5 Cost reduction in existing storage techniques</b>	<b>66</b>
4.5.1 Storage in porous reservoirs	66
4.5.2 Underground gas storage in salt cavities	68
<b><u>5. OVERVIEW OF UNDERGROUND NATURAL GAS STORAGE WORLDWIDE</u></b>	<b><u>69</u></b>
<b>5.1 Historical development of world UGS capacity</b>	<b>69</b>
<b>5.2 Panorama of UGS facilities in the world</b>	<b>70</b>
<b><u>6. UNDERGROUND GAS STORAGE IN NORTH AMERICA</u></b>	<b><u>75</u></b>
<b>6.1 The world's largest gas market</b>	<b>75</b>
6.1.1 Overview	75
6.1.2 Recent UGS balance	76
<b>6.2 Underground gas storage in the United States</b>	<b>77</b>
6.2.1 Market overview and prospects	77
6.2.2 An industrial structure demonstrating strong liberalisation	78
6.2.3 An increasingly import-dependent market	79
6.2.4 Recent UGS developments	80
6.2.5 The regional distribution of UGS facilities	81
6.2.6 Storage operators in the US	82
6.2.7 UGS projects	82
<b>6.3 Underground gas storage in Canada</b>	<b>84</b>
6.3.1 Market overview and prospects	84
6.3.2 The transmission network	85
6.3.3 Storage balance	86

6.3.4 The regional distribution of UGS facilities	86
6.3.5 UGS projects	88

## **7. THE EUROPEAN GAS MARKET** **89**

### **7.1 Market overview and prospects** **89**

### **7.2 Supply security aspects** **91**

7.2.1 Natural gas supply in Europe 91

7.2.2 The existing security of supply policies and strategic storage 92

### **7.3 Storage developments in Europe** **92**

7.3.1 The German gas market 96

7.3.2 The Italian gas market 103

7.3.3 The French gas market 107

7.3.4 The Dutch gas market 111

7.3.5 The Hungarian gas market 113

7.3.6 The British gas market 116

7.3.7 The Czech gas market 122

7.3.8 The Austrian gas market 124

7.3.9 The Spanish gas market 126

7.3.10 The Polish gas market 130

7.3.11 The Danish gas market 134

7.3.12 The Belgian gas market 135

7.3.13 The Portuguese gas market 136

7.3.14 The Latvian gas market 137

7.3.15 The Lithuanian gas market 138

7.3.16 The Slovak gas market 138

7.3.17 The Irish gas market 140

### **7.4 Underground gas storage in Central Europe** **140**

7.4.1 The Romanian gas market 140

7.4.2 The Bulgarian gas market 143

7.4.3 The Croatian gas market 145

7.4.4 The Turkish gas market 146

7.4.5 UGS projects in Serbia 149

## **8. UNDERGROUND GAS STORAGE IN THE FORMER SOVIET UNION** **151**

### **8.1 A market leader in world gas supply** **151**

### **8.2 Background of underground gas storage** **151**

### **8.3 UGS in Russia** **152**

8.3.1 Market overview and prospects 152

8.3.2 The world's largest gas reserve-holder, producer and exporter country 152

8.3.3 The legal status of Gazprom 153

8.3.4 The transport network and new export infrastructure projects 153

8.3.5 Underground gas storage facilities 154

### **8.4 UGS in Ukraine** **156**

8.4.1 Market overview 156

8.4.2 The transport and storage system 156

### **8.5 UGS in Uzbekistan** **158**

8.5.1 Market overview 158

8.5.2 A sufficiently developed natural gas transportation and storage system 158

<b>8.6 UGS in Kazakhstan</b>	<b>158</b>
8.6.1 Market overview and prospects	158
8.6.2 UGS facilities	158
<b>8.7 UGS in Azerbaijan</b>	<b>159</b>
8.7.1 Market overview and prospects	159
8.7.2 Substantial need for new UGS capacity	160
<b>8.8 UGS in Kyrgyzstan</b>	<b>160</b>
8.8.1 Market overview	160
8.8.2 Underground gas storage	161
<b>8.9 UGS in Belarus</b>	<b>161</b>
8.9.1 Market overview	161
8.9.2 The transport and storage system	161
<b>8.10 UGS in Armenia</b>	<b>163</b>
<b>8.11 UGS projects in Georgia</b>	<b>163</b>
<b>9. OTHER EXISTING UGS MARKETS</b>	<b>165</b>
<b>9.1 The Australian gas market</b>	<b>165</b>
9.1.1 Market overview and prospects	165
9.1.2 The transport and storage system	165
<b>9.2 The Chinese gas market</b>	<b>167</b>
9.2.1 Market overview and prospects	167
9.2.2 The natural gas transport system	168
9.2.3 Existing storage sites	168
9.2.4 A flurry of new gas storage projects	169
<b>9.3 The Argentinian gas market</b>	<b>170</b>
9.3.1 Market overview and prospects	170
9.3.2 The transport and storage system	170
<b>10. UGS PROSPECTS - 2020 OUTLOOK</b>	<b>173</b>
<b>10.1 The continued growth of gas consumption</b>	<b>173</b>
<b>10.2 The development of international gas trade</b>	<b>174</b>
<b>10.3 The impact of gas market liberalisation on the development of storage</b>	<b>175</b>
<b>10.4 Worldwide storage demand prospects</b>	<b>176</b>
10.4.1 UGS prospects in North America	178
10.4.2 UGS prospects in Europe	179
10.4.3 UGS prospects in the Former Soviet Union	182
10.4.4 UGS projects in the rest of the world	182
