

CONTENTS

- ACKNOWLEDGEMENTS2**
- EXECUTIVE SUMMARY5**
- STRUCTURE OF THE REPORT8**
- 1. ENERGY SITUATION SINCE THE GREAT EAST JAPAN EARTHQUAKE OF 11 MARCH 2011.....9**
 - 1.1 Fossil fuels account for 90% of power generation9
 - 1.2 Change in fossil fuel inputs for power generation 11
 - 1.3 The trade deficit surged to \$112 billion 12
 - 1.4 Energy import dependence rose to 93%..... 13
 - 1.5 End-users face much higher energy costs in Japan than in many countries..... 14
 - 1.6 Japanese power utilities face major losses 15
 - 1.7 Rise in CO₂ emissions..... 17
 - 1.8 Power demand: Permanent energy savings? 17
- 2. THE NEW ENERGY POLICY: IN SEARCH OF THE BEST ENERGY MIX19**
 - 2.1 The four main principles of the energy policy 19
 - 2.2 The role and direction of each energy source 20
 - 2.3 Electricity reform 22
 - 2.4 Feed-in-Tariffs and the development of renewable energy sources 25
- 3. RESTART OF NUCLEAR POWER PLANTS27**
 - 3.1 New strict regulation 27
 - 3.2 The scale and timing of nuclear plants restart is still uncertain..... 27
 - 3.3 Short-term impact of nuclear restart on fossil fuel imports 28
- 4. THE REVIVAL OF JAPAN’S COAL MARKET31**
 - 4.1 Coal Market 31
 - 4.2 Coal imports..... 32
 - 4.3 Coal prices 33
 - 4.4 New coal-fired power plants 35
 - 4.4.1 Coal come-back: several power plants are planned 35
 - 4.4.2 Public tenders for new coal/thermal plants..... 36
 - 4.4.3 Market liberalization and new small coal-power plants 38
 - 4.4.4 IGCC plants 39
 - 4.5 Diffusion of Japan’s clean coal technologies in the world..... 41

5. JAPAN’S LNG MARKET AND THE PRICE CUT IMPERATIVE43

5.1 Gas market..... 43

5.2 LNG imports..... 43

5.3 LNG prices..... 45

5.4 New gas-fired power projects 47

5.5 New LNG procurement strategy..... 50

 5.5.1 The pro-active role of the Japanese Government..... 51

 5.5.2 Investment overseas in upstream, LNG projects and transportation 51

 5.5.3 Diversification of supply 54

 5.5.4 Alliances between buyers..... 56

 5.5.5 New indexation based on Henry Hub..... 56

 5.5.6 New Japanese LNG price benchmark 58
