

## LIST OF TABLES, FIGURES AND BOXES

### TABLES

Table 1: EURELECTRIC outlook for EU electricity demand in 2020 .....	26
Table 2: Net generation capacity, reliable available capacity, peak load and import capacity (main EU markets, 2013) .....	30
Table 3: Average load factor of RWE's gas- and coal-fired power plants .....	41
Table 4: Current and announced mothballing and closures of gas-fired power plants, by major company and country (status at end 2013) .....	44
Table 5: Closure of coal plants in 2013 (excluding opt-out plants) .....	48
Table 6: Closure of coal-fired power plants under the LCPD .....	51
Table 7: Status of UK coal-fired power plants under the IED .....	53
Table 8: Coal plants recently commissioned and under construction (status at the beginning of 2014) .....	59
Table 9: Different ways to influence the fuel mix and reduce demand for coal .....	63
Table 10: Typical operating flexibilities of natural gas and coal power plants .....	84
Table 11: Characteristics of Capacity Remuneration Markets .....	99
Table 12: Proved reserves and remaining technically recoverable resources of gas at the end of 2012 .....	105
Table 13: Technically recoverable resources of shale gas vs. proved gas reserves in the EU .....	112
Table 14: LNG projects under construction (as of March 2014) .....	119
Table 15: US LNG export projects under review by DOE .....	121
Table 16: Global coal reserves at end 2011, by region and major country .....	140
Table 17: Evolution of total coal production by major producing countries .....	141
Table 18: China's Energy Five-Year Plan, 2011-2015 .....	146
Table 19: NEA plan for China's energy consumption in 2014 .....	149
Table 20: Seaborne steam coal imports, 2011-2018 .....	161
Table 21: EU hard coal and lignite reserves at end 2011, major countries .....	172
Table 22: EU ETS Phase 2 balance .....	183
Table 23: Emission-to-cap by EU ETS sector .....	186
Table 24: Compliance position and cost of compliance of the power sector, phase 2 .....	188
Table 25: Auction volumes after backloading .....	189
Table 26: Margin of thermal plants according to different CO <sub>2</sub> prices .....	195
Table 27: Long-term CO <sub>2</sub> prices in the EC and IEA scenarios .....	195

### FIGURES

Figure 1: EU electricity demand, 1993-2013 .....	24
Figure 2: Energy intensity of the EU economy .....	25
Figure 3: Outlook for EU electricity demand to 2035 .....	26
Figure 4: EU electricity mix in 2012 .....	27
Figure 5: EU gross electricity generation by fuel, 1990-2012 .....	28
Figure 6: Share of gas, coal and RES in the EU electricity mix, 1990-2012 .....	28
Figure 7: Electricity production by fuel in selected EU countries, 2012 .....	28
Figure 8: EU power capacity by fuel/technology, 2012 .....	29

Figure 9: Change in EU power capacity, 2012 vs. 2010.....	29
Figure 10: Marginal power plant principles in the power price.....	31
Figure 11: Annual average wholesale power prices in European regional markets.....	33
Figure 12: Evolution of retail electricity prices by component.....	34
Figure 13: Industrial electricity prices, Europe vs. United States.....	35
Figure 14: Evolution of German electricity retail prices paid by households.....	36
Figure 15: Evolution of coal, natural gas and oil prices.....	37
Figure 16: Clean spark and dark spreads in Germany.....	38
Figure 17: Theoretical CO <sub>2</sub> allowance switching price on the German market.....	38
Figure 18: Attractiveness of coal and gas differs in Germany and the UK.....	40
Figure 19: Spanish daily power generation by source.....	41
Figure 20: Running hours of Spanish CCGT plants.....	42
Figure 21: EU gas power plants in operation at the end of 2013, by year of commissioning.....	45
Figure 22: Change in gas demand by the power sector, 2012 vs. 2010, selected countries.....	45
Figure 23: Change in coal demand by the power sector, 2012 vs. 2010, main countries.....	46
Figure 24: Clean dark spread scenario for old hard-coal power plants based on 2015 forward prices.....	47
Figure 25: EU hard coal and lignite power plants in operation at the end of 2013, by year of commissioning.....	49
Figure 26: Comparison of the current trend in electricity production from solid biomass against the NREAP Roadmaps.....	56
Figure 27: Status of announced coal power plants in the EU, 2014 vs. 2007.....	60
Figure 28: Gross electricity generation in Germany.....	64
Figure 29: Phase-out of nuclear power plants in Germany, 2011-2022.....	66
Figure 30: Commissioning and decommissioning of power plants in Germany (2014-2018).....	70
Figure 31: Electricity generation in Poland.....	72
Figure 32: Net electricity supply in the United Kingdom.....	75
Figure 33: CO <sub>2</sub> reduction potential of hard coal power plants thanks to increased efficiency.....	81
Figure 34: CO <sub>2</sub> emissions of new CCGTs and USC coal plants.....	82
Figure 35: Levelised cost of electricity of gas and coal power plants with or without CCS.....	88
Figure 36: Generation asset write-downs of major EU utilities, 2010-2013.....	91
Figure 37: Valuation of key European utilities since 2008 against the stock market.....	91
Figure 38: Capacity Remuneration Mechanisms.....	98
Figure 39: Overview of EU Capacity Remuneration Mechanisms.....	100
Figure 40: Global gas demand by major region.....	104
Figure 41: Regional gas prices.....	106
Figure 42: European gas import prices vs. crude oil prices, long-term evolution.....	107
Figure 43: Gas prices in Europe: import prices vs. hub prices.....	108
Figure 44: Pricing of European gas supply, 2013 vs. 2004.....	109
Figure 45: Estimates of shale gas production costs, current and long-term.....	115
Figure 46: LNG imports vs. liquefaction capacity.....	116
Figure 47: Global LNG trade, spot and long-term volumes.....	118
Figure 48: Future LNG demand by importing region.....	122
Figure 49: Delivered price of US LNG to Asia and Europe under different Henry Hub price scenarios.....	125

Figure 50: EU gas demand, 1999-2013.....	132
Figure 51: EU gas demand by country, 1993-2013 .....	132
Figure 52: EU gas consumption by sector, 1993-2013 .....	133
Figure 53: Decrease in gas demand by the power sector, by country .....	133
Figure 54: EU gas production, 1993-2013 .....	134
Figure 55: Gas supplies in the EU, 2013 .....	134
Figure 56: Current and future European gas supplies.....	136
Figure 57: Global coal production, by type of coal.....	142
Figure 58: Global primary energy supplies.....	142
Figure 59: Evolution of coal consumption in the world by major coal consuming countries/regions .....	143
Figure 60: Annual growth in global coal demand, China vs. Rest of the World.....	143
Figure 61: Breakdown of global coal consumption by sector, 2012 .....	144
Figure 62: Coal share in the electricity mix, world and key countries, 2012.....	144
Figure 63: US electricity generation by fuel .....	149
Figure 64: Evolution of global coal demand at short-term .....	152
Figure 65: Uncertainties on future global coal demand.....	152
Figure 66: International coal trade, 1983-2013 .....	153
Figure 67: Steam coal imports by basin, 1993-2013 .....	153
Figure 68: World steam coal imports by key regions/countries .....	154
Figure 69: World steam coal exports by key countries .....	154
Figure 70: US coal exports, by type of coal .....	157
Figure 71: Annual growth in global steam coal imports .....	158
Figure 72: Chinese international coal imports and exports, 1993-2013 .....	159
Figure 73: Share of China on the international coal market vs. China's coal imports in the global steam coal trade .....	159
Figure 74: Australian FOB steam coal prices .....	162
Figure 75: International CIF steam coal prices .....	164
Figure 76: Comparison of coal prices in China (Qinhuangdao) with export prices from Indonesia and Australia .....	165
Figure 77: Australian steam coal cash cost curves.....	166
Figure 78: Supply curve for steam coal trade, 2012.....	168
Figure 79: Historical and forward CIF ARA prices.....	169
Figure 80: Primary energy consumption by fuel, EU 27 – 2012 .....	170
Figure 81: EU coal consumption by country, 2012.....	170
Figure 82: Breakdown of coal use in Europe by sector, 2012 .....	171
Figure 83: Evolution of EU total coal consumption, 1993-2013.....	171
Figure 84: EU steam coal and lignite consumption .....	172
Figure 85 : EU coal balance, 2012 vs. 2000 .....	173
Figure 86: Evolution of EU coal production, 1993-2013 .....	174
Figure 87: EU steam coal production by major producing country, 1990-2013 .....	174
Figure 88: EU lignite production by major producing country, 1990-2013.....	176
Figure 89: EU hard coal imports, 1990-2013.....	177
Figure 90: EU hard coal imports by origin, 2000 to 2013.....	177
Figure 91: Evolution of CO <sub>2</sub> prices (European Allowance Units): spot prices (2008-2014) .....	184

Figure 92: CO <sub>2</sub> emissions by the power sector, 2008 to 2012 .....	186
Figure 93: Verified CO <sub>2</sub> emissions and free allowance allocations: 20 largest European power utilities, phase 2 .....	187
Figure 94: EUAs price evolution incorporating MSR intervention, ZEPHYR model .....	193
Figure 95: Outlook for EU electricity generation, 2020 and 2035.....	198
Figure 96: EU electricity generation by 2020 and 2035, coal and gas.....	198
Figure 97: EUROGAS outlook for gas demand by the power sector, 2010-2035.....	200
Figure 98: Share of coal and natural gas in the EU electricity mix, 2010-2035.....	200
Figure 99: EURELECTRIC members' views of gas and coal power generation in 2020 .....	201
Figure 100: EU coal and gas demand in the three IEA scenarios .....	202

## BOXES

Box 1: Electricity price formation on the wholesale market: the 'Marginal Power Plant' principle and impact of RES expansion .....	31
Box 2: Calculation of clean dark and spark spreads .....	38
Box 3: Implementation of the IED in the United Kingdom.....	53
Box 4: Financing of new coal-fired power plants is becoming more difficult .....	60
Box 5: National energy mix determined by Member States .....	64
Box 6: The Energy Act.....	75
Box 7: State aid to the coal sector in Spain .....	79
Box 8: CCS technology .....	86
Box 9: Average increase of Investment and O&M costs of power plants equipped with CCS .....	88
Box 10: Security of supply issues in the United Kingdom, Germany and France.....	95
Box 11: Poland and UK: two front-runners for shale gas in the EU .....	113
Box 12: LNG export projects in the US .....	120
Box 13: Japan new energy policy .....	123
Box 14: The Ukraine crisis and dependency on Russian gas .....	137
Box 15: Coal: units and conversions.....	139
Box 16: Different types of coal .....	140
Box 17: Coal demand in China in 2013: the beginning of the levelling-off .....	148
Box 18: Chinese uncertainties: possible ban on low-grade coal .....	159
Box 18: Evolution of international steam coal prices since 2000.....	162
Box 20: End of subsidies to hard coal mining.....	175
Box 21: Evolution of steam coal imports by major EU importing countries in 2012 and 2013 .....	178
Box 22: EU ETS policy.....	182
Box 23: The role of RES and economic downturn in CO <sub>2</sub> emissions reduction.....	184
Box 24: Impact on EUAs prices of EU ETS policies.....	193
