Executive summary	4
How will LNG support Kuwait's energy transition?	5
1 Kuwait, an overview:.....	6
1.1 Politics.....	6
1.2 Economy.....	7
1.2.1 Effect of lower oil prices	7
1.2.2 OPEC deal.....	7
1.2.3 Financial strengths	8
1.2.4 Spending.....	8
1.3 Reforms & Subsidies	9
1.3.1 Reforms.....	9
1.3.2 Subsidies	10
2 What is driving gas demand in Kuwait?	13
2.1 Gas consumption outpaces supply	13
2.2 Growing share of gas in domestic primary energy mix	14
2.3 Power sector	15
2.3.1 Electricity demand growth.....	15
2.3.2 Demand management	16
2.3.3 Generation capacity.....	18
2.4 Downstream demand	25
2.4.1 Petrochemicals.....	25
2.4.2 Refineries	27
3 Domestic gas resources.....	29
3.1 Reserves.....	29
3.2 Production.....	29
3.2.1 Oil-associated	29
3.2.2 Non-associated gas	29
3.3 Jurassic rebirth.....	31
3.3.1 Phase 2.....	31
3.3.2 Phase 3.....	31
3.3.3 Contribution to oil.....	32
3.3.4 Processing capacity	32
3.4 Other E&P options	33
3.4.1 Dorra field	33
3.4.2 Offshore potential?.....	33

4	Growing LNG role as an import solution	34
4.1	Pipeline options	34
4.1.1	Qatar.....	34
4.1.2	Iraq?.....	34
4.2	LNG to the rescue	34
4.2.1	Infrastructure	35
4.2.2	Supply strategy.....	37
5	CONCLUSION	40
