

## FIGURES

Figure 1: Evolution of global working gas capacity, 1970 -2013 .....	18
Figure 2: Global underground gas storage at the beginning of 2013 – by region .....	19
Figure 3: Global underground gas storage at the beginning of 2013 – by type.....	20
Figure 4: Evolution of working gas capacity by region, 1970-2013.....	21
Figure 5: World Top 10 countries, 1.1.2013.....	23
Figure 6: World – Future gas demand and Storage needs.....	27
Figure 7: World – Storage needs to 2030, Working gas capacity .....	27
Figure 8: Estimated growth in working gas capacity to 2030, by region .....	28
Figure 9: Storage projects under construction by region.....	29
Figure 10: Storage under construction in North America and Europe.....	31
Figure 11: Number of projects (under construction and planned) and working capacity by type .....	31
Figure 12: North America – Future gas demand and storage needs .....	35
Figure 13: North America – Storage needs to 2030, Working gas capacity .....	35
Figure 14: European gas supply and demand – 2030 vs. 2012 .....	39
Figure 15: EU gas production swing .....	40
Figure 16: Europe - Future gas demand and imports and storage needs.....	43
Figure 17: Europe – Storage needs by 2030, Working gas capacity.....	43
Figure 18: Underground gas storage under construction and planned in Europe – Working gas capacity.....	44
Figure 19: Underground gas storage under construction in Europe – Salt/Non-salt.....	45
Figure 20: Planned underground gas storage in Europe – Salt/Non-salt.....	46
Figure 21: CIS – Future gas demand and storage needs .....	50
Figure 22: CIS – Storage needs by 2030, Working gas capacity .....	50
Figure 23: Underground gas storage under construction and planned in the CIS – Working gas capacity.....	51
Figure 24: Underground gas storage in the CSG to LNG chain.....	54
Figure 25: Asia-Oceania - Future gas demand and storage needs.....	55
Figure 26: Asia-Oceania – Storage needs by 2030, Working gas capacity .....	55
Figure 27: Natural gas production and consumption in China, 2000-2012 .....	59
Figure 28: Natural gas imports in China, 2006-2030.....	60
Figure 29: Estimates of working gas capacity in China by 2030.....	65
Figure 30: Underground gas storage in Europe at the beginning of 2013 .....	67
Figure 31: Evolution of European working gas capacity, beginning of 2001 to beginning of 2013 .....	68
Figure 32: Gas storage by type in Europe, Salt vs. Non-Salt – Beginning of 2006 and beginning of 2013.....	69
Figure 33: Underground gas storage in Europe by country – Beginning of 2013 .....	69
Figure 34: Ratio Working gas capacity (beginning of 2013) to Gas consumption (2012) .....	70
Figure 35: New players in the European gas storage business .....	71
Figure 36: Shippers withdrawal behavior in winter 2012/13.....	72
Figure 37: Evolution of European gas demand vs. Storage capacity, 2000-2012 .....	73
Figure 38: European LNG imports .....	74
Figure 39: Evolution of European inventories vs. Working gas capacity .....	75
Figure 40: Indicative withdrawal curve: Level of gas vs. withdrawal rate .....	75
Figure 41: Annual average SBU price and operating profits, Centrica Storage Ltd, 2005-2012 .....	76

Figure 42: UK gas storage inventories, winter 2012/12 vs. winter 2011/12.....	77
Figure 43: European winter 2011/12 supply profile .....	78
Figure 44: Supply contribution under different situation of Winter 2011/12 .....	79
Figure 45: Gas prices on the European market .....	81
Figure 46: Top Storage companies in Europe (working gas capacity, 2013).....	84
Figure 47: Historical evolution of U.S. working gas, salt and non-salt storage .....	91
Figure 48: Gas storage by type in the United States, Salt vs. Non-Salt – End 2007 and end 2012 .....	92
Figure 49: Shale gas production by basin.....	94
Figure 50: Gas demand by power plants in the United States.....	95
Figure 51: Evolution of working gas in the Producing region, Salt and non-salt storage facilities .....	96
Figure 52: The different types of storage throughout the world – Beginning of 2013.....	99
Figure 53: Monthly gas consumption in US and Texas, 2001-2013 .....	112
Figure 54: Range of storage investment costs by type of storage (€/cubic meters of working gas) ..	132
Figure 55: Natural gas prices in the United States and Europe.....	133
Figure 56: Upstream Capital Cost Index (UCCI).....	135
Figure 57: Henry Hub spot gas prices (Jan. 2006-May 2013) and price curve, 2013-2021.....	138
Figure 58: NBP seasonal spreads since 2004.....	138
Figure 59: GSE Template on transparency .....	148
Figure 60: Storage levels in Canada 2012-2013 .....	159
Figure 61: U.S. natural gas consumption by sector.....	165
Figure 62: U.S. natural gas production, consumption and net imports.....	166
Figure 63: Gas storage by type in the United States, beginning of 2013 .....	167
Figure 64: Historical development of working gas capacity in the United States.....	169
Figure 65: Working gas capacity by U.S. State .....	171
Figure 66: U.S. gas storage inventory.....	173
Figure 67: Henry Hub spot gas prices vs. working gas capacity (weekly data) .....	173
Figure 68: Top 15 U.S. storage operators.....	174
Figure 69: Interface between Storengy Storage groups and balancing zones.....	211
Figure 70: Historic peak gas supplies and highest demand day in the United Kingdom .....	283
Figure 71: Potential UK gas storage development.....	287
Figure 72: Ukrainian UGS - Working gas volumes at the beginning of the heating season .....	312
