

# Contents

Introduction.....	3
Executive Summary.....	4
<b>1. Current, under construction and planned capacity of underground gas storage in the world .....</b>	<b>8</b>
<b>1.1 Current capacity of UGS in the world (end of 2021) .....</b>	<b>8</b>
Global working gas capacity essentially unchanged .....	8
Regional breakdown: North America leads the market.....	8
Top Ten league .....	9
Historical evolution: a moderate growth since 2015 .....	10
Depleted fields dominate, but UGS in salt caverns is key to deliverability.....	11
<b>1.2 Storage projects .....</b>	<b>14</b>
A growing pipeline of UGS projects: 46 bcm of working gas capacity under construction .....	14
Identified projects would add 87 bcm .....	16
<b>2. Major trends by region in 2021 and 2022 .....</b>	<b>18</b>
<b>2.1 Russia's invasion of Ukraine redefines global gas markets .....</b>	<b>18</b>
Russian pipeline gas supply to Europe dwindles.....	18
Gas prices skyrocket.....	19
Strong US LNG exports and reduced Asian LNG imports rebalance the European market.....	21
European and global gas demand down, eroded by high prices .....	23
Storage: a pillar of security of supply.....	24
<b>2.2 European gas storage at the centre stage.....</b>	<b>25</b>
REPowerEU plan and EU gas storage policy.....	25
The importance of gas storage.....	27
European gas stocks 95% full on 1 November 2022 .....	28
Uncertainties ahead winter 2022/23 .....	30
<b>2.3 Despite the difficult conditions, Ukraine has refilled its UGS.....</b>	<b>31</b>
Stock levels reached almost 15 bcm at the beginning of November 2022.....	31
Some temporary European surplus gas stored in Ukraine .....	32
<b>2.4 Russia: Reduced exports led to fast replenishment of gas stocks .....</b>	<b>32</b>
Little changes to UGS metrics .....	32
UGS facilities in the Far East.....	33
<b>2.5 United States: Growing demand and exports lead to lower stock levels.....</b>	<b>34</b>
A slight decrease in working gas capacity .....	34
Storage trends and market evolution in 2021 and 2022 .....	34
<b>2.6 China: Significant increase in storage capacity.....</b>	<b>36</b>
China achieved strong growth in working gas capacity in 2021 .....	36
Construction of gas storage in full swing .....	37
Winter 2022/23 preparedness.....	38
<b>2.7 Central and South America advances UGS projects.....</b>	<b>40</b>
Argentina: UGS a niche market .....	40
Brazil: Suppliers in the new open gas market are building the first UGSs of the country .....	41
Mexico to finally build UGS facilities.....	42
<b>2.8 Driven by increasing gas demand, the Middle East is expanding its storage capacity .....</b>	<b>43</b>
Annex: Methodology.....	44
List of Tables, Figures and Boxes .....	45
