

CONTENTS

About the author.....	1
Executive Summary	3
1. Policy and targets	5
Energy context.....	5
The 2017 Basic Hydrogen Strategy and the 2019 Roadmap.....	5
Japan’s leadership in international cooperation and hydrogen awareness	10
2. Market trends.....	13
Residential/commercial sectors and industrial use.....	13
Mobility/FCEVs	15
Power generation	18
Blending hydrogen into the gas network.....	21
3. Hydrogen supply	22
Domestic supply: Power-to-gas, hydrogen valleys and CCS.....	22
P2G and hydrogen valleys	22
CCS	24
International supply chains.....	26
Conclusion.....	28
Annex 1: Regional initiatives to produce carbon-free hydrogen	29
Annex 2: International supply chains.....	30
LH ₂	30
Japan/Australia Hydrogen Energy Supply Chain (HESC)	30
Japan/Norway	31
MCH	32
Japan-Brunei AHEAD project	32
New Zealand Hydrogen plant from geothermal electricity	33
Australia’s solar PV energy	34
NH ₃	34
Saudi Aramco/IEEJ MoU	35
Japan/Australian feasibility studies for low-carbon ammonia supply chain	35
Main Abbreviations.....	37
List of Figures, Tables and Boxes.....	39
