

# 20th Offshore China Convention 2021

The 20th China International Offshore Oil and Gas Decision Makers Conference and Exhibition will be held in Shenzhen, China on July 8-9th, 2021! OC2021, a grand event that can communicate and understand the most advanced underwater production technology, floating production, drilling, and offshore supply chain and procurement with global petroleum industry leaders, focusing on the transformation and development of the industry in today's highly uncertain era !

OC2021 will bring together more than 800 decision makers in the global offshore oil and gas industry & more than 600 international and local oil and gas companies, oil service companies, EPCI contractors, shipyards and modular builders to discuss China, Southeast Asia, Latin America and Africa. The latest industry trends and cooperation opportunities in oil and gas exploration and development! The distinguished guests will jointly explore new industry boundaries, new opportunities for cross-border development and cooperation, an unmissable event for the upstream offshore oil and gas industry!

## **Highlights of the exhibition:**

- After the epidemic and low oil prices, focus on China in the global offshore exploration and development field
- Balance of capital expenditure and operating expenditure + efficiency improvement
- The latest offshore oil and gas project display in China and the world
- Deepwater development: new blocks, new technologies and new applications
- Demonstration of the most advanced offshore technology and general

solutions

- Roadmap for an energy transition and a zero-emission future
- .....
